Make your own bunting

Create your own bunting to decorate because a good party is not just about the food.

- 1. Find some scissors, string and a stapler
- 2. Print as many pages of this bunting template as you want, 4 pages with 12 triangles will make a nice display
- 3. Cut around the entire diamond shape and fold in the middle
- 4. Fold over your string and secure with a staple. Then hang over your table or at your entry way.
